

## Breezy Rollers Collection

### MOST VERSATILE SNEAKERS OUT THERE!

Our wheel mechanism is a Breezy innovation that allows children to easily remove the wheel from their Breezyrollers anytime, anywhere. No tools needed. Walk or roll with Breezyrollers.

### «THERE IS AN ELEPHANT IN THE ROOM»

Kids are spending nearly half their waking hours on screens, and that can have scary, lasting effects. This dependence is related to childhood obesity, poor diet or difficulty sleeping. As parents it is important to make an effort and spend more time socialising and promoting activities with their friends. Breezyrollers are perfect for active play.

### QUALITY, COMFORT & SAFETY

Breezy Rollers are made to last, only the best materials are used. Since comfort also plays a big role, all shoes have a high density EVA insole, to absorb impact. When rolling, always wear protections: helmet, elbow pads and knee pads.
